Tena koe e Joe,

The St Stephens and Queen Victoria Trust Board have received the final report from the Feasibility Working Group. The report has provided the Trust Board a significant amount of detail to consider in planning for the future of St Stephen's and Queen Victoria Schools.

The Trust Board is looking to absorb the contents of the report and collate other relevant information before confirming our immediate future direction.

It is important to consider all options and opportunities before committing to a pathway. We understand that there is an urgency to make practical progress, especially from the Alumni as well as the wider public, and we are looking to do so in a fiscally sustainable manner.

We will keep the Alumni of both schools apprised of developments as we progress.

Ma te atua koutou e manaaki e tiaki

Bernard Te Paa
Chairman
